

Beauty & Performance in Wood™

Selected projects around the globe © Kebony 2017

Kebony is a beautiful wood recommended by leading architects. It is sustainable, durable and requires no maintenance beyond normal cleaning.

Kebony's performance has been proven in a variety of applications around the world.

Arūnas Liola, Architect at Arches:

“Every time we use Kebony we learn more and more about its creative capabilities, the possibilities are endless. It is the perfect sustainable, natural and multi-purpose material for our designs, always providing an impressive final product with a striking and natural appearance.”

Introduction	04 - 05
Valley Villa by Arches	06 - 07
Slussplan Park by Mandaworks	08
Norwegian Institute for Nature Research (NINA) by Pir II	09
Rabothytta Mountain Cabin by Jarmund/Vigsnæs	10
Residential Home in Graz by Mareiner Holz	11

Beach pavillion – new wood

The Kebony® technology gives a deep rich brown colour. After exposure to sun and rain the wood develops a natural silver-grey patina. Original colour can be maintained using UV protection oils.

Kebony is a natural wood product for outdoor applications and its appearance will therefore be influenced by local environmental

CHARACTER

CLEAR

After 3 years – weathered

conditions over time. Colour changes and small surface cracks will occur due to natural weathering.

Variations in colour and surface appearance will not influence durability and overall performance of the product.
